

6th International Conference on

Ionic Liquids for Electrochemical Devices

9 - 11 September 2018, Rome, Italy

Centro Congressi Roma Eventi - Fontana di Trevi

Satellite event of the 69th ISE annual meeting

Invitation to ILED-6

It is our pleasure to announce the **6th Edition of the International Meeting on Ionic Liquids for Electrochemical Devices (ILED-6)**. Following the tradition, ILED-6 will be held in **Rome, Italy, 9-11 September 2018**. These dates have been selected to favour correlation with the 69th Annual Meeting of the International Society of Electrochemistry. Both events can thus be attended, moving from Bologna to Rome in the beautiful late-summer period. For the first time, the meeting will be located in the fascinating historical center of Rome, only a few steps away from "Fontana di Trevi", one of the masterpieces of the Baroque architecture.

The ILED Meetings are dedicated to the diverse aspects of electrochemical applications of Ionic Liquids, including batteries, fuel cells, supercapacitors, actuators and photo-electrochemical cells. Due to the growing interest of the research community, this year ILED-6 opens also to other fields where Ionic Liquids can play a significant role, such as electrodeposition, electrochromism, biochemical applications, cultural heritage, and others. Also, fundamental theoretical and experimental studies aimed at elucidating the structure and physic properties of Ionic Liquids are welcome.

Important dates and deadlines

Opening of abstract submission and registration: **18 April 2018**

Deadline for abstract submission: **30 June 2018 (extended!)**

Notification of abstract acceptance: **7 July 2018 (extended!)**

Deadline for early-bird registration: **11 July 2018 (extended!)**

Online registration closes: **31 August 2018**
